	1) My association with De Anza college started over 25 years ago when I took a auto tech class in high school. I have watched changes to the campus overtime and look forward to helping shape our campus for the future. I understand facility needs, and what it takes to run a campus such as ours.		
	2) Diversity is present on campus with our different departments and their facility needs and uses. It is important to have a representative from different departments to make the facility committee a diverse group. I would like to represent our automotive department on the facilities committee to bring yet another mind on board to the facilities committee.
